- ◆ Core Skills are the five skills that are important for work. They are often achieved automatically, being embedded in other qualifications. The highest possible level for a Core Skill is 6.
- ◆ The Scottish Credit and Qualification Framework (SCQF) is a way of describing and comparing Scottish qualifications. It describes a qualification by giving it a level to show how hard it is, and a number of credit points to show how much work is involved. There are 12 levels, level 1 being the simplest and level 12 the most complex. One credit point represents approximately 10 hours of effort.
- ◆ The European Qualification Framework (EQF) is a translation tool that helps understand and compare qualifications awarded in different countries by different education and training systems.
- ◆ Where your qualification is SCQF credit rated, and is accredited, the credit rating body is SQA Accreditation.
- ◆ Other SCQF credit rated qualifications are credit rated by SQA Awarding Body unless otherwise stated on your Detailed Record of Attainment.

SQA Qualifications on the SCQF are referenced to the EQF
